Information in this manual is presented in the order of use by reviewers. The first two chapters of this manual provide an overview concerning what is a pesticide and what constitutes a pesticide label and labeling. The third chapter discusses general label format and legibility requirements, identifies the major parts of the label and directs the user to the appropriate chapter which contains additional information. Other chapters provide the reader with step-by-step instructions for reviewing a pesticide label and any associated actions such as the Pesticide Registration Action Tracking System (PRATS) entries for label reviews and situations where the Confidential Statement of Formula affects the label language. The last chapter describes how unique labeling issues are handled.

The Label Review Manual will be updated on an "as needed" basis to reflect new and changing labeling policies.
